VISION & MISSION

LET'S INITIATE AN OASIS IN DIGITALIZATION

India is the country of great minds, extreme potentials, intellectuals, philosophers and full of vibrant youth. Since centuries, Indians have had a great impact over philosophy, science and technology. Our former prime minister Shri Rajeev Gandhi took great initiative to start digital education among students & youth. His dream has been visualized by many people and institutes and even abroad. AIITA's vision is in alignment with the dream of Shri Rajeev Gandhi in every respect in promoting digital literacy among people. The vision of AIITA is to develop basic computer skills in people that helps them in getting desirable employment. The mission of AIITA is to enhance the capability of computer skills in youth of rural and urban areas. Special attention has been given to youth of country's tribal belt. To fulfil the mission and the vision, AIITA paves the way through awareness of digital education and digital literacy campaigns. AIITA is known for philanthropic approach among youth, offering them all computer courses in nominal fee-structure. It provides a cohesive learning environment that weaves technology and management in everyday life. Our innovative academic programs incorporate a tradition of academic excellence and experimental learning with an emphasis on team-work. The institute's environment instills the skills needed to succeed in a competitive global environment. We imbibe capabilities of working in diversified fields with creativity, imagination and perseverance in our students. We actively explore and develop new methodologies such as alternative teaching techniques and learning approaches that promote thinking skills and lifelong learning habits.

All India IT Association has collaborated with iudex International and Law Firm to carry out efforts of synergy. It has also enhanced efforts to acquire quality through International Quality Certification (IQC) for its members and associates. Apart from these, All India IT Association has also coordinated and collaborated with South Asian Chamber of Commerce & Industry (SACCI) to develop and enhance economy of the country through creating various educational economic and business activities among its members and associated business groups. iudex International Law is another global organization that has been collaborated its proficiency and efficacy to protect legal rights at National and International level. In South Asia region, All India IT Association has approached its core and peripheral activities through MoU and other business interaction with SACCI. This will develop International exchange of business groups, educational academies, institutes and IT professionals to showcase their potential and business growth.

iudex International Law

iudex is one of recognized brands at international scenarios and has been working in various verticals across the world. The Latin word iudex connotes the sense of accuracy, judge along with multiple meanings as decider, umpire or juror. The initial journey of iudex international started from India through Alma and later it became Alma World UK. Alma was established in 1999 in Central India to promote computer education and later it went to pan India. iudex organization is vibrant and synergetic which paves the way of sustainable corporate growth. The process of business model design is part of business strategy. Business model design and innovation refer to the way a firm or a network of firms, defines its business logic at the strategic level. An operationally viable and feasible business model requires lateral alignment with the underlying business operations. It goes with International verticals that have its own business model for sustainable marketing growth and future of brand. Business models have been designed in such a way so it's operational levels which go through various business

operations to get the goal. This refers to their process-level activities, capabilities, functions and infrastructure. Leadership of iudex organization carries values and professional ethics under the guidance of Chairman Willi Jezler (Chairman iudex), Maharaja Dr. Karan Singh (Patron), Dr. Diwakar Sukul (Patron), Shri Santosh Shukla (President iudex) and other prominent personalities of corporate and academic spheres of the world. We at iudex, follow values to the bottom of the heart as Trust, Integrity, Honesty, Responsibility, Excellence, Passion, Pioneering Unity and Transparency. The Philosophy of iudex imbues humanitarian values which seeks to enable, empower and transform corporate and business communities across the world. In order to operate effectively in an environment of borderless business, humanity, committed services and globalization, iudex has to function under a philosophy which can sustain such concepts. In support of globalization, suggests that a holistic philosophy approach is capable of maintaining congruence within the global organization.

UID (Unique Identification Document)

iudex is one of recognized brands at international scenarios as a leading brand and has been working in various verticals across the world. World Book of Records has generated Unique ID and Unique ID Certification for authentic verification of record holders of World Book of Records. Unique Document Identification Number is an authenticated verification tool for the validity of a document. It has been noticed by the Institute that financial documents/certificates attested by third persons misrepresenting themselves as members are misleading the authorities and stakeholders. To curb the malpractices, the Technology Development Committee of iudex has implemented an innovative concept of UDIN Unique Document Identification Number to secure the certificates/documents attested/certified by the organization. This will enable the people to check the authenticity of the documents. Unique Document Identification Number (UDIN) is 04-Digits system generated unique number for every document certified/attested by iudex. Algorithm of UDIN the UDIN format will be 04 digits - Unique Document Identification Number (UDIN) is a 04-Digits system generated unique number for every document certified/attested by the organization. UDIN portal and can

generate UDIN. No document is required to be uploaded for generating UDIN. The generated UDIN can be used for mentioning on the Certificate for which it has been generated either by printing (watermarked) the same or can be handwritten. If it is being handwritten, it can be mentioned after Signatures and Membership Number of the Member. At the Verify UDIN option, mention the UDIN number & some details like authorities' name, mobile, email, details of the document will appear. In case a document is revoked, System generated email/SMS will be sent to the Regulators and third parties who have already viewed the documents so that they can be aware about the revocation of documents. Certification number means the unique identification number issued by the iudex to each for each location. Each certification number shall consist of a 04 digit Arabic number preceded by the S letter and followed by a two letter abbreviation for the type of activity or activities that the HOLDER is qualified to in accordance with parameters of iudex. How to verify a certification? Looking to verify a certification? Just enter the certificate number and last name below to find out if a certification is valid. The certificate number can be found on the certificate itself.

iudex Gazette Journal

iudex Gazette journal is a gazette is an official journal, a newspaper of record, or simply a newspaper. In English and French speaking countries, newspaper publishers have applied the name Gazette since the 17th century; today, numerous weekly and daily newspapers bear the name the Gazette. Ordinary gazettes are regularly published weekly on a particular day of the week whereas extraordinary Gazettes are published every day depending upon the urgency of the matters to be notified. iudex Gazette journal is an annual publication. The publication of gazette is executed as per iudex international (allocation of business

GAZETTE JOURNAL

rules) issued from time to time by management of the organization. It follows e-publication of the Gazette Notifications. iudex Gazette Notifications are published digitally and printed by different verticals of the organization and are uploaded on the egazette website by the concerned vertical through e-publishing system. Gazette is an authorized legal document of iudex international containing the mode of operations under the law of the land. It may be mentioned here that this Publication Programme is executed as per the Allocation of Business Rules issued from time to time by the organization.

INTRODUCTION

ALL INDIA CYBER SECURITY ASSOCIATION

AIITA will make all rigorous attempts to help students enroll in the courses they wish to learn, even in other colleges. The mode of training will be a mix of practical and advanced research and depending on inquisitiveness and outlook of students. AIITA is introducing a cyber security division named "All India Cyber Security Association" to enlighten students about the dangers of misusing the technologies. Beginning from the Stone Age, it has always been human consciousness to defend itself from outdoor terrorization. The ideas, tricks and the methodology of fortification from evilness and encroaching threat factors have also evolved over the time. Initially we, the humans, had to protect ourselves from physical threats like encroachers and the looters. In this day and age, with the mounting attractiveness of cyber connectivity and worldwide interlinking, the wicked has also evolved in the form of breach of cyber security. It is a virtual world we have produced and we have to be well equipped to protect and sustain our virtual world from the virtual encroachers.

MISSION

The prime mission of All India cyber security association is to protect our national cyber infrastructure from wicked cyber terrorization. To ensure accessibility of cyber security courses, our division will host diversity of topics that will be conducted as : National Security, Web Application Security, Networking Security, Mobile Security, Malware, Internet of Things, Cyber Forensics Social Engineering. The Cyber World has been formed by computers and computer networks. The internet which is an electronic communications network that connects computer networks and organizational computer facilities around the world is an interactive tool for instant access of information and knowledge on nearly every area under discussion. The web has created the super express highway of communication, connecting every part of the globe which, in turn, has introduced the conception of Global Village a "virtual reality".

VISION

All India cyber security association has been started with a great vision to protect the nation from the current terrorization in the cyber space. The multi-dimensional structure of technology in the cyber space poses a great challenge in managing the complex problems in the cyber domain. Our nation is facing huge threats from various countries in cyber attacks and information thefts. National Cyber Safety has taken a visionary initiative to limit and weaken the notoriously spreading cyber threats from various directions and dimension. All India cyber security association is developing innovative strategies and compliance procedures to control the increasing complexity of the "Global Cyber Threats".
